Dear shareholders,

The Board of Directors and the Executive Committee of GF attach great importance to good Corporate Governance in the interest of shareholders and all other stakeholders. In the year under review, we held many fruitful discussions and deepened our understanding of our shareholders' expectations. In 2019 the focus of these meetings was on Environmental, Social and Governance (ESG) as well as on strategy. You can review the results of these exchanges in our report and in the comments below.

Trust-based collaboration

GF has a strong and independent, non-executive Board of Directors. A transparent and trust-based collaboration between the Board of Directors, Chairman, CEO and Executive Committee is a prerequisite for the success of a company. This is nurtured and put into practice in exemplary fashion at GF with mutual respect as well as regular and open information of the Board of Directors by the Executive Committee. Joint visits to companies and markets allow us to understand the needs of our customers but also to increase the mutual understanding.

Business conduct and corporate culture

As an international industrial company, GF is at home in a variety of activities and countries. Wherever we operate, we fully comply with all applicable laws and regulations. We firmly believe that sustainable and long-term success is always based on excellent Corporate Governance practices and ethically impeccable conduct.

GF's business conduct and corporate strategy are based on the foundation and the implementation of our five GF values. They shape and embody the philosophy and spirit of GF in its daily work for the benefit of our key stakeholders and the whole company. The values are translated into a set of standards for ethical conduct and integrity, which define GF's corporate culture and are summarized in the Code of Conduct. This document is published in 18 languages and is binding for all employees of all three divisions and at all locations. For the daily operations in the GF entities, it is complemented by internal policies and regulations implemented at the Corporate and local levels.

Changes to the Board of Directors and the Executive Committee

Early 2020, the Board of Directors of GF has finalized several aspects of its long-term personnel planning which includes a rejuvenation of both the Board of Directors and Executive Committee. Andreas Koopmann, Chairman of the Board of Directors of Georg Fischer Ltd., will not stand for re-election at the next Annual Shareholders' Meeting and Roman Boutellier will step down as Member of the Board of Directors on reaching the age-restriction defined in the GF organization and business rules. The Board of Directors will propose Yves Serra for election as new Chairman and Peter Hackel as new Member of the Board of Directors. In addition, the Board of Directors appointed Ivan Filisetti as new President of GF Machining Solutions and Member of the Executive Committee of GF effective 1 July 2020. He will succeed Pascal Boillat, who will reach the retirement age in September.

Hubert Achermann, Member of the Board of Directors since 2014 and currently Chairman of the Audit Committee, will be, subject to re-election at the Annual Shareholders' Meeting, nominated as Vice Chairman and Independent Lead Director. As such, with his experience and seniority, Hubert Achermann, together with the other independent Members of the Board of Directors, will ensure efficient control and supervision in compliance with best Corporate Governance practices due to the fact, that Yves Serra served as CEO and Member of the Executive Committee of GF until 2019.

We are very pleased about these long-planned succession solutions at the helm of GF. With his in-depth knowledge, Yves Serra will contribute to secure continuity on GF's strategic orientation and successful growth path. By creating a strong position of Independent Lead Director (www.georgfischer.com/en/investors/corporate-governance.html) with Hubert Achermann, we will ensure strict compliance with broadly accepted Corporate Governance guidelines. With these changes, GF is strategically well positioned to meet the upcoming future challenges.

We propose Zhiqiang Zhang (Member of the Board of Directors since 2005) for re-election, although he already serves 14 years. Zhiqiang Zhang is a Chinese citizen and has held key positions in leading European corporations in

China for many years. As GF generates more than 20% of the Corporation's revenue in China, his expertise in China and in-depth knowledge of European culture and its economy are extremely valuable. Therefore, the Board of Directors is proposing his re-election.

At the end of 2019, one third of the Board of Directors has been on the Board for less than five years and two of the nine Members are female. This means that we have a well balanced ratio of continuity and newer input, and benefit from the widely spread experience and in-depth knowledge of all Members of the Board of Directors.

Focus on strategy implementation

In the last year of its strategy cycle 2016-2020, GF will continue to focus on the implementation of its strategic thrusts and the acceleration of the strategic transformation in all divisions, especially at GF Casting Solutions. The structural shift within the automotive industry from traditional powertrain systems to hybrid and e-mobility concepts, shows that the focus on lightweight structural components and parts for the energy and aerospace sector were the right moves. GF Piping Systems will continue to shift its portfolio to higher value business. The broad global customer base and the focus on sustainable solutions resulted in a strong performance despite difficult market conditions. The focus on sustainable innovations and solutions for the safe transport of liquids and gases will remain the key focus of the division. GF Machining Solutions' passion for customer-centric innovations, especially for innovative, digitalized solutions, remains the key driver for growth and profitability.

Engagement with shareholders

GF puts high attention to a positive and trustful collaboration with our shareholders. For the Board of Directors, the high level of approval of all agenda items at the 2019 Annual Shareholders' Meeting was a great satisfaction. However, we are not resting on our laurels. In the year under review, we once again attached great importance to good and trusting cooperation with our shareholders, and visited many shareholders as well as proxy advisors to explain our positions and to receive their expectations. We very much appreciate this close and open dialogue.

2019 was a significant and successful year, but there is still a great deal to do. The fast changing economic conditions and high uncertainties require a high level of commitment and flexibility from everyone. We are very confident that GF will continue to make significant further progress with your continued support.

Mandate

Pursuant to § 21 of the Articles of Association of Georg Fischer Ltd, a Member of the Board of Directors may at one and the same time hold no more than four additional mandates as a Member of the supreme managerial or governing body of listed legal entities and no more than ten additional mandates as a Member of the supreme managerial or governing body of unlisted legal entities.

In addition, a Member of the Board of Directors may not hold more than ten mandates that he or she exercises by order of the company, in legal entities belonging to the Member's own family, in a professional or industry association or in a charitable institution.

Mandates of associated companies or institutions, which are exercised in the function as a Member of the supreme managerial or governing body of a legal entity, together count as one mandate.

Succession planning

For new nominations, a requirement profile is drawn up based on a competence matrix, and suitable candidates are sought and contacted with the help of an external executive recruiter. The Nomination Committee is responsible for preparing and drawing up the requirement profile as well as for pre-selection. Candidates also meet the Chairman and other Members of the Board of Directors personally before any nominations are proposed.

All Members of the Board of Directors are non-executive. Eight Members of the Board of Directors are independent and one Member of the Board of Directors has been a Member of the Executive Committee until the Annual Shareholders' Meeting 2019. However, two Members have been on the Board of Directors for more than twelve years. Roman Botueller (Member of the Board of Directors since 1999) will step down from the Board at the Annual Shareholders' Meeting 2020. Meanwhile, Zhiqiang Zhang (Member of the Board of Directors since 2005) will be proposed for re-election at the Annual Shareholders' Meeting 2020. Zhiqiang Zhang is a Chinese citizen and has held key positions in leading European corporations in China for many years. Since GF generates more than 20% of the Corporation's revenue in China, his expertise in China and in-depth knowledge of European culture and its economy are extremely valuable. Therefore, the Board of Directors is proposing his re-election.

Areas of responsibility

The Members of the three standing Board Committees are listed at the beginning of this chapter and in the separate section [Members of the Board of Directors](#). The Board Committees provide preliminary advice to the Board of Directors and do not make any definitive decisions. They discuss the issues assigned to them and make proposals to the Board of Directors as a whole. The CEO attends the meetings of the Board Committees, but is not entitled to vote. Minutes of the committee meetings are sent to all Members of the Board of Directors. The Chairmen of the individual committees also make a verbal report at the next meeting of the Board of Directors and submit any proposals.

Working methods of the Board of Directors

Decisions are made by the Board of Directors as a body. Members of the Executive Committee also participate in Board meetings for agenda items relating to the company's business, but are not entitled to vote. Only the Chief Executive Officer is present when personnel topics are dealt with. Personnel topics affecting him directly are treated in his absence. Invitations to Board meetings list all the items that the Board of Directors, a Board Committee, or the CEO wish to discuss. All participants in a Board meeting receive detailed written material on the proposals in advance.

The Board of Directors meets at least four times a year under the leadership of its Chairman. During the year under review, it met six times: five meetings lasted less than a day. The strategy meeting was embedded in the Board's five-day China trip in 2019 and included several customer visits and inspections of subsidiary sites. The dates of the regular meetings are generally set well in advance to enable all Members to attend personally. In the year under review, the attendance rate was 96% as one Member of the Board of Directors was unable to take part in the trip to China due to sickness. The three standing Board Committees met a total of 14 times.

External consultants are called on for their services when specific topics are involved. Further information is provided in the section on the Board Committees.

Evaluation

In 2019 the Board of Directors worked on the implementation of the findings out of the self-assessment which took place in 2018. Another assessment is planned for 2020.

Audit Committee

The Audit Committee consists of three Members of the Board of Directors (see separate section [Members of the Board of Directors](#)). It supports the Board of Directors in monitoring accounting and financial reporting, supervises the internal and external audit function, assesses the efficiency of the internal control system including risk management and compliance with legal and statutory provisions, acknowledges the sensitivity analysis of the pension funds of Georg Fischer Ltd, and issues its opinions on transactions concerning equity and liabilities at Georg Fischer Ltd. The Audit Committee also decides whether or not the consolidated financial statements and those of Georg Fischer Ltd can be recommended to the Board of Directors for presentation to the Annual Shareholders' Meeting.

As a rule, the Chairman of the Board of Directors, the CEO, the CFO, the Head of Corporate Controlling and Investor Relations, the Head of Internal Audit, and a representative of the external auditor also take part in the meetings. At the request of the Audit Committee the external auditor also provides information on current questions related to the financial reporting requirements and financial issues.

In the year under review, the Audit Committee held four ordinary and one extraordinary meeting, four of which lasted half a day, and one lasted two hours. All Members of the Audit Committee attended all five meetings.

Compensation Committee

The Compensation Committee consists of three Members of the Board of Directors (see separate section [Members of the Board of Directors](#)), who are elected on a yearly basis by the Annual Shareholders' Meeting. It supports the Board of Directors in setting compensation policy at the highest corporate level. It uses knowledge of internal and external compensation specialists about market data from comparable companies in Switzerland, in addition to publicly available data obtained on the basis of compensation disclosures. Furthermore, based on internal and external sources, common market practices and expectations of stakeholders are continuously evaluated by the Compensation Committee. Adaptations to the long-term incentive plan (LTI) decided in 2018, based on requirements expressed by the shareholders of GF, were implemented in 2019. These adaptations are disclosed in the [Compensation Report](#). The Compensation Committee proposes to the Board of Directors the total amount of compensation to be paid to the entire Executive Committee and the Chief Executive Officer.

The Compensation Committee held four ordinary and one extraordinary meetings during the past fiscal year, each of which lasted one to two hours. All five Compensation Committee meetings were consistently attended by all of the Compensation Committee Members.

Nomination Committee

The Nomination Committee consists of three Members of the Board of Directors (see separate section [Members of the Board of Directors](#)). It supports the Board of Directors in succession planning and assists in the selection of suitable candidates for the Board of Directors and the Executive Committee. The Nomination Committee is kept informed annually about succession planning for the Senior Management levels, about the talent pipeline within Senior Management, and the diversity situation. For specific high-level recruitments, services of headhunters were hired.

In the year under review, the Nomination Committee held three ordinary and one extraordinary meetings, which lasted one to two hours on average. All Members of the Nomination Committee attended all four meetings.

Information and control instruments

The Board of Directors is informed in depth about business performance every month. The Members of the Board of Directors receive the monthly report. In addition to an introductory commentary on the current course of business, it contains the most important key figures for the course of business and the monthly closing as well as a preview of the next three months and the year-end. These key figures are broken down by Corporation, divisions and Corporate Companies. The Executive Committee presents and comments on business performance and presents its assessment of business performance for the coming months at Board meetings. It also presents all important topics to the Board of Directors.

In addition, the Board of Directors receives regularly the forecast containing the expected figures at year-end. Once a year, the Board of Directors receives and approves the budget of the Corporation and the divisions for the following year. The Board of Directors holds as a general rule a two-day meeting once a year to discuss the strategies of the divisions and the Corporation as a whole. Once a year, it discusses the Corporate Risk Officer's report, the Corporation's risk profile and is updated about the measures taken to minimize and control risk.

The Chairman of the Board of Directors attends the Corporate Convention of the Senior Management and the Executive Committee's strategy meeting and is a regular attendee at other corporate management meetings. The

Chairman of the Board of Directors and the CEO inform and consult each other regularly on all business matters that are of fundamental importance or have far-reaching ramifications. The Chairman of the Board of Directors receives the invitations and minutes of the Executive Committee and Corporate Staff Meetings. He visits Corporate Companies on a regular basis to see their operations in person and how they are implementing the Corporation's strategy. In 2019, he visited Corporate Companies in Europe, in the USA and in Asia.

Internal Audit

Internal Audit reports to the Chairman of the Audit Committee operationally and to the CFO administratively. Based on the audit plan approved by the Audit Committee, Corporate Companies are audited either annually or every two to five years, depending on the risk assessment and based on a comprehensive audit program. In the year under review, 39 internal audits were conducted. The audit reports are reconciled with the management of the audited Corporate Companies or responsible functions and distributed to the line managers, the external auditor, the Executive Committee, the Chairman of the Board of Directors as well as the Chairman of the Audit Committee. Audit reports with significant findings are presented to and discussed in the Audit Committee.

Internal Audit ensures that all discrepancies arising in internal and external audits are addressed and submits a report to the Executive Committee and the Audit Committee. The Head of Internal Audit prepares an annual report, which is discussed by the Executive Committee and the Audit Committee. He also serves as the secretary of the Audit Committee.

Corporate Compliance

The Service Center Law & Compliance informs the Board of Directors and the Executive Committee about legal issues and significant changes to the law. The Corporate Compliance Officer (CCO) is appointed by the Chief Executive Officer and in this function reports to the General Counsel; he informs the CEO directly, if necessary. The CCO helps Corporate Companies comply with the law, internal directives, and the Corporation's principles of business ethics in their business activities, in particular through preventive measures and training in the divisions along with information and advice to the Corporate Companies. The Executive Committee, in consultation with the CCO, defines priority issues. Furthermore, all GF employees have the possibility to report compliance violations anonymously through a special compliance e-mail address to the CCO.

A number of compliance measures were implemented in 2019:

- + further implementation of the "Compliance Agreement for Intermediaries" as a guideline for GF business partners who act in the name or interest of Corporate Companies within the GF Corporation
- + roughly 2'900 internal e-learnings were conducted on anticorruption, competition, and cartel law as well as for export controls and economic sanctions
- + training courses on antitrust law, anticorruption, export controls, and/or other compliance topics at various Corporate Companies
- + ongoing advice and support for internal revisions
- + continuation of specific compliance measures for intermediaries (e.g. ongoing checks regarding the appropriateness of the engagement of and the compensation paid to intermediaries as well as examination of their ownership structure so as to avoid conflicts of interests)
- + further implementation of a web-based system for the prevention of business with sanctioned persons and organizations
- + advice on issues relating to export controls, cartel law, and labor law

- + further implementation of the function "Compliance Agents" (carried out by the Business Unit Controllers) for risk assessment and internal control
- + updating the data protection measures in view of the changed legislation in the EU and preparatory activities with respect to the forthcoming revised Swiss data protection law

Risk management

The Board of Directors and the Executive Committee attach great importance to the thorough handling of risks in the areas of strategy, finance, markets, management and resources, operations, and sustainability. The Head of the Service Center Risk Management & Tax acts as the Chief Risk Officer (CRO) and, in this function, directly reports to the CEO. The CRO gets support from a non-executive risk officer from each division. Supplemented by internal experts of the corporate risk management, the risk officers under the leadership of the CRO constitute the Corporate Risk Council that met twice during the year under review. In addition, the CRO conducted workshops with the management of the three divisions as well as with the Executive Committee to analyze the risk situation, discuss measures to mitigate the risks, and define the actual top risks of each unit. Based on the results of the workshops, a risk report has been prepared which will be reviewed by the Board of Directors in February 2020.

The handling of financial and operational risks is explained in the notes to the consolidated financial statements in [note 3.6 Risk management](#).

Assessment

The Board of Directors evaluates and assesses the performance of the Executive Committee and its Members at least once a year in the absence of the Executive Committee Members. The Chairman of the Board of Directors must approve any appointments of Executive Committee Members to external Boards of Directors or to high-level political or other public functions.

Auditors

Mandate

In 2012, PricewaterhouseCoopers, Zurich (Switzerland), was elected as external auditor. Beat Inauen is the auditor in charge since the Annual Shareholders' Meeting 2019. He will assume the responsibility of the audit for no longer than seven years. The statutory auditor is elected at the Annual Shareholders' Meeting for a term of one year.

Audit fees

In 2019, the Corporation spent about CHF 2.68 million (previous year: CHF 2.76 million) worldwide in connection with the annual audits conducted by PricewaterhouseCoopers at Georg Fischer Ltd, the Corporation, and the Corporate Companies. For additional services, PricewaterhouseCoopers received in 2019 fees of approximately CHF 0.53 million (previous year: CHF 1.26 million), thereof CHF 0.02 million (previous year: CHF 0.19 million) for consulting mandates in connection with accounting, CHF 0.38 million (previous year: CHF 0.21 million) for services related to tax advice and CHF 0.13 million (previous year: CHF 0.86 million) for transaction services.

Supervisory and control instruments

The external auditor informs the Audit Committee in writing about relevant auditing activities and findings as well as other important information regarding the audit of the Corporation. The auditor in charge of the external auditor attended the four ordinary meetings of the Audit Committee.

The Audit Committee reviews and evaluates the effectiveness and independence of the external auditors annually. For this purpose, Internal Audit reviews all auditing services rendered by external auditors for the Corporation and their costs. The Audit Committee bases its evaluation on the following criteria:

- + quality of the documents and reports provided to the Audit Committee and the management
- + time taken and costs
- + quality of oral and written reports on individual aspects and pertinent questions relating to accounting, auditing, or additional consulting mandates

In cooperation with internal and external audit, the Audit Committee evaluates the potential for improvements regarding the collaboration, the processing of the assignments and the interfaces or overlapping of internal and external audit work.

For the evaluation, the Members of the Audit Committee use first of all the knowledge and experience which they have acquired as a result of similar functions at other companies. Internal Audit also issues an annual list of all services rendered by external auditors for the Corporation and their costs. The costs for the annual audits of Georg Fischer Ltd, the Corporation, and of all Corporate Companies were approved by the Audit Committee. Further services from PricewaterhouseCoopers are examined by the Head of Internal Audit and, depending on the amount, approved either by the CFO or by the Managing Directors of the respective Corporate Companies.

The Corporate Website content focuses primarily on general information about GF the company's image and career opportunities, the divisions pay high attention also on products, sales and customers.

While the stories on the website focuses more on background information, the content on other digital channels like LinkedIn or Facebook is mostly news oriented. It will support GF's brand image and reputation. Also in the year 2019, GF was able to significantly increase the number of followers on its Social Media Channels.

A lot of attention from the public and Media was given to several big events in 2019, for example the Capital Market Day, but also to the official inauguration of the new respectively rebuilt headquarters of GF Machining Solutions and GF Piping Systems.
